

Who is KGC?

Founded in 2015 in Calgary, AB, Canada by Mr. Jerry Crawford, KGC Consulting Services Ltd. (KGC) provides construction and energy dispute litigation support to Canadian law firms and construction companies that require creation of expert opinion reports, schedule impact delay claims, and damage assessment costs. KGC has helped drive success for numerous and varied clients and legal firms for over four years.

Today, the KGC team comprises nine diverse professionals – each a recognized expert in their own specialized field. KGC continues to experience significant growth. It has expanded its service roster to include a broad spectrum of construction and energy market sectors, extended its geographic reach to include all major Canadian centres (from Ottawa to Vancouver), and continues to enjoy a high frequency of repeat clients and industry referrals. KGC is on the move!

KGC Mission

KGC is committed to servicing an evolving commercial and legal dispute business landscape for clients across multiple market segments, and facilitating positive outcomes.

Client Endorsements

We have found working with KGC to be an appropriate and responsive fit for some of our requirements that necessitate expert report input.

Mr. Kirk Mason -Partner, HMC Lawyers LLP

KGC Consulting has provided Norfab Manufacturing Inc. 1993 with commercial advisory services and contractual support on various files since 2015.

Mr. Greg Van Halst - President, Norfab Manufacturing Inc. 1993

Six KGC Benefits for Legal Firms

1

Sourcing Expert Witnesses is a time-consuming process. If you require two or more experts, KGC can help with an extensive digital rolodex of industry professionals that can be sourced for clients using streamlined and easy search methods. KGC can source talent for the most complex construction and energy disputes.

2

Preparing an Expert Report is a project by definition. KGC uses Project Management Institute (PMI) principles and processes outlined in *PMBOK 6 Guide* to optimize production and delivery of reports. Using this framework helps ensure a healthy professional working relationship that includes client communication and coordination efficiency to manage risks, constraints, stakeholders and reporting.

3

Coordinating Expert Interfaces to review multiple documents for key facts can be a laborious endeavour; clients seek and require excellent document and knowledge management professionals to assist expert professionals. With document management professionals like **Ms. Brenna Burwash** (see inset on Page 2), KGC expedites the process of finding relevant, useful facts. KGC's state-of-the-art high speed scanning and coding technologies-capabilities inject further efficiencies for clients who need documents uploaded into legal software databases (e.g., Relativity and Eclipse databases).

KGC Community Support: Upcoming Events (March 6, 2019)

KGC Consulting proudly supports the new Calgary Cancer Centre (see inset) through volunteer work with the RICS/CIQS (Prairies Chapter) in the hosting of their 5th Annual Construction & Project Management Seminar. **The event** will provide an insightful procurement in features perspective on the delivery of this new 2 million sf state-of-the-art health care facility.

Ms. Brenna Burwash

Library Technician
Document Management Technician

Ms. Burwash works with commercial databases using advanced search techniques and is experienced with research in academic libraries and archives that provide reference and circulation support to various clients. She is trained in Records Management, including Generally Accepted Recordkeeping Principles and ISO 15489-1: 2001.

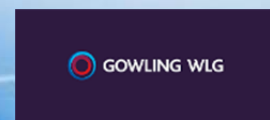

Dr. Rebecca Bromwich

Ph.D., LL.M., LL.B., BA
Legal Consultant

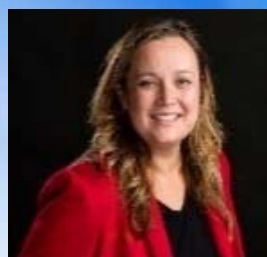

Dr. Bromwich provides persuasive commentary about positions or alternative positions designed to withstand opposing counsel's questioning in all schedule delay impact assessment scenarios. She provides support and review in communicating and clarifying legal aspects of reports, and ensuring that the information conveyed is clear and legible to the Arbitrator, Adjudicator, Court or Tribunal. Dr. Bromwich also assists in preparing witnesses to effectively communicate in the adjudicative process.

KGC Clients

KGC Stars deliver services that exceed expectations and drive project success.

Six KGC Benefits for Legal Firms (continued from previous page)

4 Schedule Delay Impact assessments related to various root causes and opining on those issues is a challenging writing task when producing quality expert reports. KGC's valued expert **Dr. Rebecca Bromwich** (see inset) reviews documents at 30, 60 and 90% completion stages. Ms. Bromwich draws on her impressive education and extensive practical legal industry experience. She provides persuasive commentary about positions or alternative positions designed to withstand opposing counsel's questioning in all schedule delay impact assessment scenarios.

5 Damages Computation and Quantification of costs for construction and energy disputes add up quickly if a project engages a traditional larger accounting firm. KGC offers alternative AACE and CIQS industry-accredited professionals who have the necessary skills and qualifications, are recognized by tribunals and courts, and work at cost-effective rates.

6 Expert Witness Preparation can take considerable time, effort, and incur great expense. KGC developed a comprehensive questionnaire to assist legal counsel internally and externally to manage questioning challenges. The skills set and attributes of **Dr. Rebecca Bromwich** (see inset), KGC's internal advisory lawyer, adds considerable depth, knowledge and advantages during expert witness preparation.
